I suffered with catarrh for many years and got so deaf
that I went about my Museums, Circus and Theatre giving
directions and doing business with a big ear-trumpet at
the side of my head. It was very annoying to me and
amusing to those who saw me. By the advice of physi-
cians I sought the climate of the Sunny South. In six
months I could see no change and was discouraged. At
this time I began using Chalmer's English Catarrh Cure.
In three months I felt a new man, in six months my hear-
ing returned. I refused to give a testimonial at once for
the English Catarrh Cure, as I feared it was not perma-
nent. But a year and more has now passed, and I can
now heartily indorse Chalmer's English Catarrh Cure for
the cure of catarrh and deafness.

NATIONAL Republican Ticket.

FOR PRESIDENT,
BENJAMIN HARRISON
OF INDIANA.

FOR VICE-PRESIDENT
LEVI P. MORTON,
OF NEW YORK

THE STONEY PLATFORM Against Irrigation for Nevada.

The Committee on Platform and Resolutions reported the following, which was adopted as read:

The Republican County Convention in session in Gold Hill on the 4th day of October, 1888, adopt the following resolutions:

Resolved, That in reaffirming our unwavering confidence, in and loyalty to the principles and purposes of the Republican party, this convention gives its earnest and enthusiastic endorsement to the National platform of the party, adopted at Chicago on the 21st day of June, 1888, and the resolutions of the Republican convention adopted at Winona, Minn. on the 18th day of May.

The two platforms embody the latest and most advanced expressions of the principles of the Republican party, and as such we believe them to be entitled to the support of every laboring man in Nevada.

Resolved, That we are opposed to the joining of the School fund either directly or indirectly to the State or to individuals for the purpose of investment in schemes of irrigation or other so-called public improvements. The School Fund of the State is a sacred trust, and no part of it should be jeopardized for the benefit of individual or land syndicates.

Resolved, That we entertain continued confidence in the ability and integrity of our Senators and Representative in Congress, and in the name of the people of the State tender to them our thanks for their patriotic efforts on behalf of silver and protection to American labor.

SENATOR AND ASSESSOR.

The Battle Mountain Central Nevada says:

It will be observed that the Democrats of this county have nominated both Senator and Assessor this Fall. Two years ago A. A. Nicholls was elected to the office of State Senator for a term of four years, and Jeff Hull, as Assessor, for an equal period. Mr. Nicholls, they claim, has forfeited his right as representative from this county by ceasing to be a resident of this State, therefore losing his rights of citizenship. In Mr. Hull's case it is maintained that the Legislature has not the power to augment the term of any office, and since, four years ago, the term of Assessor was increased to four years by that body, the Democrats have placed Sam Crescenzo, of Austin, on their ticket to test the constitutionality of the law. Should the Republican County Convention, in session, refrain from similar nominations, it would signify their approval of the grounds taken by the friends of Nicholls and Hull. If otherwise, the two gentlemen will be left to battle alone with both parties in the courts of our State. In case the courts should decide in favor of the beligerents and the Republicans failed during election to compete for either office, the resultant would be abhorring to the latter side, by them, virtually, giving the two most important offices in the county to Democrats.

The Democrats are privately preparing to pass a bill to repeal the tobacco tax if it shall appear probable that the Tariff bill will not pass the Senate. There is a strong combination of the Senators and Representatives from the States of Virginia, North and South Carolina, Kentucky and Tennessee pledged to demand it. In all of these States a political organization called "The Farmers' Party" has quietly been making such headway as to endanger political conditions. Almost the only plank in its platform is the abolition of the present system of internal revenue taxation on tobacco. Its adherents would like, in addition, to remove the tax from fruit brandy, but for the present they will be content to stop at tobacco. The regular organizations in at least two of these States have instructed to this effect. This is a demand which the Democrats of the House have found it difficult to ignore. At present, however, the Democrats are preparing to oppose the proposition of the Republicans to remove the tax from alcohol used in the arts whenever the Senate Tariff bill shall be reported, on the claim that it will not be possible under such a plan to prevent frauds.

The Colorado extension of the Chicago and Rock Island Road is completed to Falcon, a point twenty miles from Colorado Springs. Rock Island trains will run into Denver on November 4th. A combine between the Rock Island and the Colorado Midland for a Salt Lake connection is now talked of in railway circles at Denver.

ALL OR NOTHING.

Pacific Coast Republicans Will Fight Cleveland's Pro-Chinese Plans.

WASHINGTON, October 1st.—It is not probable that any action will be taken by the Senate toward the enactment of a law to allow Chinese who had embarked on their return to the United States, duly provided with certificates before the passage of the bill signed today, to land upon their arrival in this country. The President in his message today, suggested that some such law as this be enacted by bill or resolution, and he also asked that \$278,619 75 be appropriated to indemnify the Chinese for outrages committed upon them in frontier camps and settlements. An item to pay this money was entered in the treaty rejected by China, and by appropriation therefor has since been inserted in the general deficiency bill, of which fact the President should have been aware.

There is a diversity of opinion as to the rights of Chinese now in transit to this country and provided with bona fide certificates, to land on their arrival. The question at issue seems to be whether Chinese now en route to the United States enjoy any acquired rights under the former law that cannot be taken from them by the law enacted today. In any event lawyers here say that the question will probably be settled by the United States in San Francisco, and that it will require that Chinese now in transit cannot be permitted to land upon their arrival, and that they must be returned to the port of embarkation. The law is mandatory, they affirm, and cannot be evaded.

AN EXTRAORDINARY PROPOSITION.

Senators Dolph and Stewart say that they regard it as a very extraordinary proposition for the President to approve a bill cutting off summarily and completely the entrance of Chinese, and then ask Congress to disprove of and amend it.

Representative Morrow did not think the House would take any action on the suggestion of the President and enact a law allowing those Chinese who had left home prior to today to enter the United States. "You see," he said, "we have had this thing for thirty years now, and are about tired of it. For thirty years the Representatives of the Pacific Slope have been trying to close the Golden Gate against the Chinamen. It has been done at last and we have no wish to open the gate—not even a crack. I do not think the Foreign Affairs Committee of the House will take any action, although I cannot speak authoritatively. Should an attempt be made, there is little probability that it would be successful, as there is not a quorum of the committee in the city at the present time. I am inclined to think that the fight that will be made by

THE AGENTS OF CHINAMEN.

Who left China before this law went into effect will be unsuccessful. They will claim that they left their homes in good faith, and that when they went on board an American vessel they were under the protection of our flag. That would not hold good in my opinion. It would seem that this law would so effect those who have been allowed to land temporarily and are out on writs of habeas corpus. When their cases are called up in Court and their certificates are presented, it would seem to me that the Court would hold that the evidence was void from the time of this law going into effect. This would send those already here back.

NO INDEMNITY FOR CHINAMEN.

"There is one thing in the message that I am going to fight, and that is the indemnity clause. If I am not mistaken, the general deficiency bill has been held back for this law. They will now try to pass this bill. It will never become a law with the Chinese indemnity clause. There is not a quorum in town and there will not be. They must take out the Chinese clause, or I will make the point of no quorum and defeat the proposition."

Twenty-five years ago the question was, Shall the Union be destroyed? and today the question is, shall the industry and prosperity of the Union be destroyed? and properly enough, the same parties are on the same side now as then.—Hon. A. L. Morrison.

The Government under Mr. Cleveland and Democratic "economy" is costing about \$5,000,000 more a month than it did under the last Republican Administration. In the last year alone 799 new offices have been created, costing more than \$850,000 a year.

The Republicans are very sanguine that they will have control of the next House. They expect to suffer losses in certain districts, but they believe that such losses will be few, and will be many times made up by gains elsewhere. They claim that they will gain two or three seats in Iowa, in Pennsylvania three, in Nebraska one, in New York two or more, in Kentucky two, in Illinois two, in Michigan two, in Minnesota one, in New Hampshire one, in West Virginia three, and they also expect gains elsewhere.

COL. NEW AND HIS PRINTERS.

The Indianapolis "Journal" Trouble Comes to an Amicable Settlement.

INDIANAPOLIS, Ind., Sept. 21.—Col. John C. New and the striking printers amicably settled their difficulty today, and the Journal becomes a Union office. Col. New had said that he would run the paper as he pleased regardless of any consequence. This language gave the Democrats a weapon which they began to use vigorously. Col. New's friends became irritated and further embarrassment followed. The printers' union, meanwhile, was publishing a paper called the Appeal, copies of which were mailed as first-class matter to Republicans throughout the country. These papers fell into the hands of men who saw the embarrassment under which Gen. Harrison was laboring. A number of them, it is understood, advised the Republican National Committee and other persons of authority in the party that they would purchase the Journal in order to make matters satisfactory. As long ago as the first of this month it was talked by Republicans on the inside that Col. New had been given to understand that it would be better for him to consult the desires of his political friends if he expected to remain in politics. This action was not taken until the probable price of the Journal had been ascertained. There was not much trouble in that regard. The Journal is an excellent piece of property, and pays well at a capitalization of \$125,000, but that out no figure. The committee was prepared to meet the Colonel on any terms. Gen. Russell A. Alger, it is understood, said that the embarrassment of Gen. Harrison—whose sympathies have been enlisted in behalf of the printers who were denied arbitration—should not be tolerated, however much the price. When Col. New came home a few days ago it was said he would remain here until he made terms with the printers. The trouble between the Journal and its men eliminated about one year ago, when printers were imported from St. Louis and Milwaukee to take the places of union men. The question of wages cut no figure. The Journal has ever since the lockout paid the highest prices in the city. The morning after the change Col. New announced that the only question was whether the proprietor of the Journal should manage its affairs or whether the property should be turned over to others without consideration or responsibility as to its maintenance.

HARRISON AT HOME.

The Head of an American Christian Household—The Family Altar.

Rev. M. J. Haines, pastor of the First Presbyterian Church of Indianapolis, where General and Mrs. Benjamin Harrison have been members ever since they went to Indianapolis, just after they were married, says that even during political campaigns, General Harrison almost invariably managed to go arrange his engagements as to be in his pew on Sundays. Often he spoke from six to ten times a week, and on Sundays met his Bible-class, composed of half a hundred young men, looking as bright and as fresh as if just back from a vacation in the mountains. "Those who hear General Harrison," writes Mr. Haines, "When called upon to lead in prayer in the Thursday evening service in his church, cannot but notice the simplicity and chasteness of expression, the humility of spirit and the deep sense of reverence that characterize his utterances. I venture to allude to this because the real disposition of man's heart often comes to its clearest betrayal in his prayers. "I will not presume to draw aside the veil that conceals the home life of General Harrison and his family; yet I feel free to say, that it is a Christian American home, of the noblest type, where the affection that binds its members is purified and strengthened by faith in God, and where from the family altar that was erected more than a third of a century ago, there goes up each day the utterance of thanksgiving and confession and prayer to the Heavenly Father."

The work of the House is now practically over. There were only fifty-three members present when the House was called to order Wednesday and no business of any importance can be transacted during the remainder of the session of the House, as there is an understanding among the members who have left that no important measures are to be taken up or discussed. The defeat of any bill lies in the power of a single member who calls for a quorum of the House. It is not possible at this time to obtain a quorum. The friends of a measure have to abandon it when these tactics are employed. As soon as the Tariff bill is introduced in the Senate, the session of that body will be occupied entirely by speeches on that subject. An effort will be made in both the House and the Senate to pass the resolutions suggested by Cleveland in regard to permitting those Chinese to land who have already started for this country and who would have been entitled to land under the old law.

Assistant Secretary of the Treasury Maynard is of the opinion that no Chinese in transit will be allowed to land, under the law. He is also of the opinion of that Judge Hoffman having refused to issue any writs to Chinese who arrived on Saturday before the Act was signed, that writs will not be issued to those who came later. He says the law is so explicit in its terms that the Executive Department of the Government could not interfere in behalf of Chinese in transit, if they were disposed to do so.

Don't Forget Morton.

[From the Independent.]

Levi P. Morton, the candidate of the Republican Party for Vice-President, is known personally by thousands in the city of New York and elsewhere as an able, reliable business man, whose character is without even the suspicion of a stain, whose liberality in helping every good cause is worthy of all praise, and whose rare executive ability and high social standing qualify him to fill any place in the gift of the people.

The San Francisco Bulletin says:

The operations of a full and well-equipped corps of railroad surveyors in the passes of Plumas county tend to confirm reports which have been current for the last two years of the designs of the Union Pacific to secure a through line to San Francisco from a point on its Oregon Short Line. It also agrees with general statements recently made by prominent railroad men that a great development of railroad building is imminent in Northern California. In the southern part of the State the two rival roads have covered the country with a net work of branches and feeders. The entry of a new overland line is likely to have the same result in Northern California.

I am like the boy who hired his sister to make his shirts. Some one said: "You could have taken those shirts to the factory, and have them made and saved \$2." "Yes," said the boy Protectionist, "sister Sally got a pretty good price. She always pays me well for what I do for her. That \$2 bill is still under the same roof with me, and if sickness or trouble or hard luck comes to any of our family that money is there in the house."—Hon Wm. E. Mason.

THIRTY YEARS IN CONGRESS.—Judge Kelley, of Pennsylvania, the "Father of the House," has just been renominated for the fifteenth consecutive term. If he lives to serve through it, he will be the second man in the history of the country who has served thirty years consecutively in one branch of Congress. Thomas H. Benton was the other, and his thirty years was spent in the Senate.

NEW TO-DAY.

SUMMONS.

IN THE DISTRICT COURT OF THE STATE of Nevada, in and for the county of Washoe. The State of Nevada sends to Isaac Weston Esquire: You are hereby required to appear in said court, on the 11th day of January, 1889, at ten o'clock in the forenoon, to defend against the complaint of Orlando Evans as plaintiff, in the District Court of the State of Nevada, in and for the county of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this summons—exclusive of the day of service—if served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days, or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover from you the sum of three hundred and fifty dollars in the gold coin of the United States, for money had and received by defendant to the use and benefit of plaintiff and belonging to plaintiff, demanded by plaintiff of defendant, to pay which or any part thereof defendant has heretofore failed and refused to pay, and still does fail and refuse to pay, together with interest thereon from date of judgment until paid at ten per cent. per annum and for costs of suit, all of which will more fully appear from the complaint, which is on file in the office of the Clerk of said Court, at Reno, in said county. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will take judgment for the said amount besides interest and costs of suit. In testimony whereof, I, T. V. Julien, have hereunto set my hand and affixed the seal of said Court this 11th day of January, 1889. T. V. JULIEN, Clerk of the District Court of Nevada, in and for Washoe county. S. D. KING, Attorney for plaintiff.

TO THE CITIZENS OF RENO.

HAVING PURCHASED THE RENO GAS Works and with a view of increasing the consumption of gas, the company respectively gives notice that they are prepared to introduce gas, put in pipes and fixtures, in stores, dwellings, etc., and at prices to cover cost only. The company will also put on new tips and burners for customers whenever requested, free of cost. Persons wishing gas will please leave their orders at the gasworks, as no one is permitted to introduce gas into premises from the street main, or set meters, but the gas company. Will also state that they are not being manufactured in Reno as an auxiliary to any other light, therefore no reasonable person will expect a meter to be left with him standing idle while he is consuming gas. With a constant supply of good gas at low rates the company hopes to merit and receive a liberal patronage from the people of Reno, and to the credit of the city. A. FIEBIGER, Manager.

ONE IN WASTE DUMPS.—The Virginia Chronicle says:

In a majority of the waste dumps at the leading mines on the Comstock, there was more or less ore extracted in explorations when the mines were first being opened. At that time all ore that assayed less than \$50 per ton was thrown on the waste dump. In a majority of cases this ore is buried so deep by waste, accumulated in subsequent explorations, that it would cost more to get it out than the bullion realized from it would cover. The most important deposit of ore mixed with waste on the Comstock, is said to be located in the Chollar original waste dump, which has been lying east of the present hoisting works for more than twenty years. Numerous offers to purchase that dump, or pay a royalty on the ore found, have been submitted to the company and rejected, on the ground that the company intends sorting out the ore at some future date and crushing it in the interest of shareholders. The dump contains many hundred thousand tons, but what percentage of the material is ore cannot be estimated.

PUBLIC DOCUMENTS.—A large number of public documents, bearing the frank of Senator John P. Jones, are being received at the various postoffices throughout the State. Senator Jones always sends out to his constituents the documents allowed him, and any person who will ask him for any particular document, will be certain to receive it, if the document is in Washington.

TRUCKEE RIVER POWER SCHEME.

The Virginia Chronicle noted several months ago that an agent of a New York Company had visited the Comstock for the purpose of estimating the cost of transmitting to the lode by electricity the water power of the Truckee river for operating stamp mills to be erected for the purpose of crushing low grade ore assaying less than \$5 per ton. This the agent claimed could be done and leave a fair profit margin in bullion above the cost of production.

Under the date of September 26, this agent writes the Chronicle that he has succeeded in getting nearly sufficient capital subscribed to carry out the project and that he will shortly visit the Comstock again to ascertain what amount of ore of the grade mentioned can be secured. While here this agent ventured the opinion that he could sort enough out of the waste dumps at the mines to keep a 60-stamp mill in steady operation crushing it, but he overlooked the fact that to obtain a ton of ore it is often necessary to remove a miniature mountain of waste material.

The Store County Republicans nominated the following ticket:

Senators—Col. E. D. Boyle and J. C. Dunlop.

Assemblymen—Archibald Allen, Thos. R. Farr, George D. Pyne, A. W. Merriam, P. A. McNamara, John L. Hanna, C. B. Wyckoff, J. B. Williams, Richard Bonnets, F. P. Langgan.

Sheriff, J. S. McCullough; District Attorney and County Superintendent of Public Instruction, J. A. Stephens; County Clerk and Treasurer, Frank Wildes; Recorder and Auditor, Thomas Gracey; Public Administrator, A. J. Welch; County Surveyor, left vacant.

County Commissioners—Long term, Milo C. McMillan, of Virginia; short term, E. W. Folsom, Gold Hill.

THE SUTRO TUNNEL.—The Directors of the Suto Tunnel Company announce that stockholders have an opportunity, for many days from October 1st, to subscribe for the new first mortgage bonds, which run for thirty years and bear 4 per cent. interest. The proceeds are expected to pay all indebtedness.

According to a statement published, the receipts last year exceeded the disbursements by \$172,890, and as the interest on the bond amounts at the maximum to but \$88,000 there should be a fair dividend remaining.

A WARNING.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the Throat and Lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing Consumption and to the head, causing Catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may cost you your life. As soon as you feel that something is wrong with your Throat, Lungs or Nostrils, obtain a bottle of Beech's German Syrup. It will give you immediate relief.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children's Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children's Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-sw f-1v

Age Cannot Withstand Her.

remarked an old gentleman, as he gazed fondly upon the comely little woman by his side; "but frankly," he continued, "at one time I was afraid cosmetics would." The silly little woman, in order to appear youthful, plastered her face with the different varieties of white-wash, yolept "balm," "creams," "lotions," &c. "Yes," interrupted the little woman, "I did, until my skin became like parchment, and so pimply and coarse." "Well," said the listener, "what do you use now?" "Use," was the reply, "nothing but common sense, and Dr. Pierce's Golden Medical Discovery. Common sense told me that if my blood was pure, liver regulated, appetite good, that the outward woman would take on the hue of health. The 'Discovery' did all those things, and actually rejuvenated me."

PETS OF THE PRESIDENT.

They Hold Uncle Sam's Millions Without Paying Interest.

A Washington dispatch says the Democrats in the House are so busy adjourning from day to day that they have no time to take up the Mason resolution to investigate the loaning of the Government money to favored National banks and the contributions of these institutions of the Democratic campaign fund. Mr. Mills and others of the Democratic leaders who used to roar so loudly against the money power are out on the stump keeping their mouths tightly closed about the Cleveland Administration's financial policy, which they know is unpopular in the West. The loaning of \$60,000,000 to the favored banks without interest, and the refusal to buy bonds and thus cut down the interest of the National debt until these bonds had gone up from 124 to 130, are some things that no supporter of the President has yet dared to defend. Instead, the attempt has been made to suffice inquiry into the subject. When Mason's resolution was introduced it went to the Committee on Banking and Currency, of which Beriah Wilkins is Chairman. Wilkins put the resolution into his pocket and slipped over to New York, where he is engaged in helping on the Democratic campaign. It is stated that Chairman Brice at once found important work for him. This is quite likely. The bank which is known as "Cal" Brice's bank has more than \$1,000,000 of Government money in it. It might be awkward if a Congressional committee were to follow up the inquiry suggested by this thought. That the money thus loaned out by the Administration has been put where it will do good is shown by a glance at the list of depository banks. The six banks in Mr. Carlisle's district—which is so extremely rural that it required two weeks to obtain the election returns two years ago—had in their possession August 18, about 45 per cent. of all the Government money bestowed upon all the banks in Kentucky by this beneficent Administration. There are ten Congressional districts in Kentucky besides Carlisle's, and one of them contains the great city of Louisville, while Frankfort, the State Capital, is included in another. It appears also that the six banks in Carlisle's district had in their possession, free of interest, more than 1 7-10 per cent. of all the public money so deposited in all the banks in the United States, August 18.

THE PRESIDENTIAL CONTEST.

What and Argument of the Great Campaign.

Solon Chase, of Maine, the old leader of the Greenbackers, is stumpng Indiana for Harrison.

It is difficult to understand how Chairman Mills can go home and look at honest Texas sheep in the face.

The Peru, Ind., Republican declares that thirty-four Democrats in the immediate vicinity have joined Republican clubs.

The political pot in the East is boiling more furiously now than at any time since 1861. It means a Solid North for Harrison.

The Democrats started the Mills bill as their principal campaign weapon. They are now kept busy dodging their own boomerang.

Democrats and Prohibitionists in Illinois are holding joint meetings, at which music is furnished by Democratic and Prohibition Glee Clubs.

The Secretary of the Republican committee of Monroe county, N. Y., has upon his books the names of over 300 converts from Democracy.

Out of twenty Vice Presidents at a Republican meeting in Bangor, Maine, fourteen were Democrats who voted for Cleveland four years ago.

Harper's Weekly admits that the Maine election, in connection with the result in Vermont and Oregon, "indicates rather a Republican drift."

The Democratic party is a Free-trade party or it is nothing. The Democrat who is not a Free Trader should go elsewhere.—Henry Watterson.

Democratic campaign money is plenty in New York city, and ward tramps and bootleggers are fattening on champagne, wine and terrapin stew.

English Free Trade—which has devastated the industries of Ireland—is identical with the policy of the Democratic party of to-day.—John Brennan.

Congressman Breckinridge's district (the Arkansas one) went Republican at the last election. He, as well as Mills, has some "fence mending" on hand.

PROSPERITY KILLED HIM.—The White Pine News says: The recent death of Tom Roberts at the county hospital is attributed to his bad luck in winning \$15,000 in the Havana lottery. It was too much for his nerves and he sported and drank himself to death.

Cleveland Leader: Business prospects are made bright by the hopeful feeling which prevails regarding the future of trade. Anticipations of prosperity have kept pace with hopes of Republican success. Money will feel safe under a safe man like Harrison.
